Subject: CONFIRMED - Internal call if needed to prep for ND Coyote Station call on common control letter
Attachments: [Untitled].pdf; Agenda for 11-29 internal Coyote Creek call.docx; RE: Another Meadowbrook case from ND; RE: ND proposal to approve Dakota Yeast – dry yeast manufacturing permit splitting the facility from Minn-Dak – sugar beet processing plant; Links to related common control petition responses
Location: R8DEN-6107-GrayWolf/R8-Wynkoop (conference line) **Ex. 6 Personal Privacy (PP)**
Start: 11/29/2018 8:00:00 PM
End: 11/29/2018 9:00:00 PM
Show Time As: Busy

I added one more attachment, links to related common control petition responses, that we may want to refer ND to for reference if they are willing to beef up their Coyote Station analysis.

All – I requested Patrick put together an agenda and some additional meeting materials for the call. Please see attached. We have a new related issue that has cropped up with another permit that is currently out for public comment and would also like to include this in the discussion; it is described in some of the attached materials.

[Original meeting invite note: ND indicated they are doing some research and will be asking Patrick to assist with that. As appropriate, we'll add materials to this invite based on what we are able to glean from that research. Region 8 plans to lead the call with ND but we thought it would be most efficient if HQ participated in case we need assistance addressing any concerns raised by the state.]
